

## ANEURYSM

*The following are important documentation tips and strategies for this disease/condition as required by the specificity needed in ICD-10:*

- Identify aneurysms as with or without rupture.
- Provide the specific site such as:
  - Aorta
  - Thoracic aortic
  - Abdominal aortic
  - Thoracoabdominal aortic
  - Carotid artery
  - Upper extremity artery
  - Renal artery
  - Iliac artery
  - Lower extremity artery
