

## CHOLESTEATOMA

*The following are important documentation tips and strategies for this disease/condition as required by the specificity needed in ICD-10:*

- Specify if the location is the external or Middle ear.
- Middle ear must be further identified as:
  - *Attic.*
  - *Tympanum.*
  - *Mastoid.*
  - *Diffuse cholesteatosis.*
- *Detail any recurrent cholesteatoma.*
