

## FEVER

*The following are important documentation tips and strategies for this disease/condition as required by the specificity needed in ICD-10:*

- Identify the following:
  - *When the origin is unknown*
  - *Drug-induced*
  - *Identify the drug*
  - *Underlying conditions and causes*  
*(e.g., neutropenic fever, mosquito-borne viral fevers, heat, etc.)*
- Postprocedure fever.
- Postvaccination fever.
- Febrile nonhemolytic transfusion reaction.
