

## NEWBORN FEEDING PROBLEMS

*The following are important documentation tips and strategies for this disease/condition as required by the specificity needed in ICD-10:*

- Identify conditions related to newborn feeding problems, which include:
  - *Specify the type of vomiting (e.g., bilious).*
  - *Regurgitation and rumination.*
  - *Slow feeding.*
  - *Underfeeding.*
  - *Overfeeding.*
  - *Neonatal difficulty with breast feeding.*
  - *Failure to thrive.*
