

NEWBORN, JAUNDICE

The following are important documentation tips and strategies for this disease/condition as required by the specificity needed in ICD-10:

- List the type of hepatitis when applicable.
- Identify the underlying cause, such as:
 - *Preterm delivery.*
 - *Bruising, bleeding, infection, polycythemia, swallowed maternal blood, drugs, or toxins transmitted from mother or given to the newborn.*
 - *From breast milk inhibitor.*
 - *Other hepatocellular damage or excessive hemolysis.*
