

PHLEBITIS AND THROMBOPHLEBITIS

The following are important documentation tips and strategies for this disease/condition as required by the specificity needed in ICD-10:

- State the laterality when applicable (i.e., right, left or bilateral)
- Specify the affected site(s) which include:
 - *femoral vein*
 - *iliac vein*
 - *popliteal*
 - *tibial*
 - *other deep vessel*
