

ULCERS OF THE DIGESTIVE TRACT

The following are important documentation tips and strategies for this disease/condition as required by the specificity needed in ICD-10:

- Detail the anatomical site (e.g., duodenal).
- Identify the severity by including:
 - *Acuity*
 - *Bleeding*
 - *List the site*
 - *Obstruction*
 - *Perforation*
- Report any related diseases (e.g., H. pylori).
- Specify any associated medication or drug use and the purpose of its use (e.g., Advil for hamstring sprain)
