**Re: New turn-key Chronic Care Management program for your Medicare fee-for-service patients!!**

We are excited to announce that Scripps Mercy Physician Partners has partnered with Renova to offer an exclusive **Chronic Care Management program** to our members.

Effective immediately, you will be able to work with Renova to better manage your patient population and generate additional Medicare revenue.

The Centers for Medicare & Medicaid Services (CMS) recognizes chronic care management as one of the critical components of primary care. As of January 1, 2015 Medicare began paying for non-face-to-face care, 20 minutes per month (CPT 99490). This care is under the general supervision of a physician, but does not require ongoing direct physician care.

**Our program includes:**

- **Increase Practice Revenue—Immediately**  
Most practices have hundreds of eligible patients. Eligible patients have two or more chronic conditions, and a comprehensive care plan prepared by the physician. If 200 patients are in the program, projected monthly revenue could increase by up to \$4,000/ month.
- **No Up Front, Out of Pocket Costs**  
Renova is able to interface seamlessly with your existing software to document patient interactions in your current EMR and trigger and coordinate monthly billing.
- **Improved Patient Wellness & Overall Experience**  
The Renova patient care team delivers care, knowledge, and encouragement to patients by phone or email. The patient care team helps patients follow the care plan and encourages compliance through a highly personalized, one-on-one approach.
- **Enhances Practice Efficiency**  
Each practice has their own Exclusive Renova Patient Care Advocate (PCA) Team working as an extension of the practice. The PCA team serves as a communications and information hub – driving the plan, documenting patient’s progress and monitoring any changes between appointments – thereby creating healthier outcomes and reducing hospital admissions.

**For more details & information about the Chronic Care Management Program with Renova®, please contact –**
